Be careful with President Biden

Let's create a new international order with
Weapons of Peace: Internet shutdown in one country.

It is time for United Nations General Assembly
resolutions to have the power to bring about world
peace.

1. Biden Backroom Dealings with the Kremlin

1) Evidence that Biden make Backroom Dealings with the Kremlin

On the 27th, immediately after Wagner's Moscow march (June 24-25), a government plane flew from Moscow to Washington, DC.

Even though the US Biden administration had a meeting, it was a secret conversation that had not been reported.

<https://twitter.com/flightradar24/status/1673705360136495106>

The screenshot shows a tweet from Flightradar24 (@flightradar24) with a verified account. The tweet text reads: "Our most tracked flight at the moment is a Russian government IL-96 en route to Washington from Moscow. flightradar24.com/RSD898/30e551f0 Google による英語からの翻訳 現時点で最も追跡されているフライトは、モスクワからワシントンに向かうロシア政府のIL-96便です。 flightradar24.com/RSD898/30e551f0"

The flight tracking interface shows the following details:

- Flight ID: RSD898
- Operator: Russia - Special Flight Squadron
- Aircraft: Ilyushin Il-96-300
- Registration: RA-96018
- Country of Reg.: Russia
- Serial Number (MSN): 74393202018
- Age (Aug 2007): 15 years
- Route: VKO (Moscow) to IAD (Washington)
- Scheduled: 9:00 AM, Actual: 9:27 AM, Estimated: 1:41 PM
- Altitude: 5,770 km, 08:59 ago, 2,450 km

The map shows the flight path from Moscow, Russia, across the Atlantic Ocean to Washington, DC, USA.

It is impossible for only one propeller to bend in a U shape like this when an object hits it.

This video is a fabrication by the US Department of Defense, as it shows land or islands.

Russia's announcement was that the aircraft had intruded into restricted wartime airspace on the Black Sea high seas, but it was not outside its territorial waters and exclusive economic zone.

3) This tweet seems to have endured Biden and Sullivan

I felt that the shot down of an American high-altitude weather balloon was a joint production by the US and China, making the two sides look tense.

I felt that President Biden and Advisor Sullivan tried to change my Twitter fixed page.

I also felt that the same was true regarding the fabrication and leakage of secret documents by senior Biden administration officials.

https://twitter.com/Kay_121/status/1636562017086746624

2. Biden is able to stop the war immediately because US has the weapon of peace, "one country's internet shutdown."

1) Biden tried to force a ceasefire-like peace on Ukraine that favored Russia.

When Mr. Xi Jinping visited Moscow and Prime Minister Kishida visited Kyiv at the same time, Biden tried to impose a ceasefire on Ukraine.

I discovered Biden's intentions.

Here is my document, which was forwarded by President Zelensky to the G7 leaders and thwarted Biden:

http://kay5.music.coocan.jp/Tell_President_Biden_to_make_peace.pdf

I could see Putin in tears after the press conference on the second day of the Xi Jinping talks. At least, it was clear that Biden did not impose a truce peace on Ukraine.

After this, Germany, France, and other countries actively provided long-range missiles, but the US remained passive.

By failing to provide ATACMS and delaying F16 fighter pilot training, Ukraine was effectively denied air superiority over its territory.

They continue to show an extreme lack of intelligence, as they keep telling Ukraine to break through to a single point using only ground armor, which is equivalent to telling Ukraine to carry out the Normandy landings without even having air superiority.

2) One Country's Internet Shutdown

I informed Russia, Ukraine and the US shortly after the invasion began.

I believe that this was also confirmed to the US foreign minister through the Ukrainian foreign minister.

In reality, the US can simply configure its own Internet root servers to redirect all packets from IP addresses in Russia to a single server.

Email proposed immediately after the invasion:

http://kay5.music.coocan.jp/The_way_to_stop_war.pdf

USA

Plan S: "Weapons of PEACE = one country's Internet shutdown"

Add the following setting to the US Internet root server to shut down the Russian Internet.

Redirect all packets from the most widely used root IP in Russia to a specific Kremlin IP address.

Power down all fiber optic cable terminators in other countries that connect to Russia.

3) Sanctions against US

Let the United Nations General Assembly resolution recommend the US to implement "one country's Internet shutdown" against Russia.

If the Biden administration does not comply, let UN make sanctions on the US.

We should impose sanctions on the US administration that does not use the weapon of peace, "one country's Internet shutdown." Biden is playing a "merchant of death" by allowing the war to continue.

(1) Move Internet root servers to Europe (eg, CERN) to block the US.

(2) Restructuring the Internet network provider organization to bring it closer to physical networks.

(3) Reorganize each country's servers with the largest number of connections outside the country as each country's Internet route.

3. Current Situation August 31, 2023

1) Prigozhin is not dead.

(1) It was announced too soon that he had died in an accident.

When two top military leaders suddenly die, there is no authority to judge that the deaths should be announced immediately until the next top is decided.

Both Prigozhin and Utkin are not dead.

At the very least, the Ministry of Defense's claim that it was shot down by two surface-to-air missiles was a complete lie.

It is impossible for an interceptor missile to shoot down just one wing.

If the missile hits and explodes, the aircraft will be destroyed.

A missile cannot shoot down just one wing without landing.

There were two explosions, one in the fuselages, but if a missile had hit it, it would have been completely destroyed.

Wagner and the Ministry of Defense have tried to get the word out and have provided evidence that it was a complete hoax.

(2) Filmed after the accident Prigozhin's "mid-air disintegration" was

The footage Prigozhin allegedly filmed before the accident was put out to make my tweet look less impressive.

By repeatedly using the term airborne disassembly, he tried to correct my point that the MoD announcement was a lie.

A female flight attendant contacted her family to inform her that the aircraft's departure would be delayed due to time-consuming maintenance.

Prigozhin apparently planted two explosives beforehand. The only people who can get close to the fuselage of the private plane are those associated with Wagner.

In addition, the emergence of this video further strengthened the problem of the absence of authority, which I had pointed out when I first noticed the fabrication.

Normally, the next top person would be introduced, and that top person would allow footage of Prigogine before his death to be shown.

If they were going to fabricate it, they would have had to make it look like it.

Despite the loss of two top executives, Wagner continues to operate without any problems as an organization.

(3) "Let Prigozhin be dead" is Biden's intention

Based on the details of the communication with me, it is only possible to assume that President Biden gave instructions to have Prigozhin die before Turkish President Erdoğan visits Russia the next day, the 25th.

I pointed out that President Biden was making a crazy decision to hand over the "nuclear button" to international terrorist Wagner.

So, with the negotiations between the Kremlin and Erdoğan disappearing, they desperately forced the fake footage of the "airborne disintegration" to be released.

Then there were reports that Erdoğan would visit in September.

After some delay, joint exercises between the US and Turkiye forces were announced. This could be said to be bait for Biden to restore cooperative relations with Turkiye.

After I made this tweet, the Biden administration probably asked Elon Musk to make my tweets undistributed and unviewable.

I actually taught twitter-Japan how to restrict the view so that only the person who tweeted it can see it.

Elon Musk probably didn't know. I could immediately see the limitations.

2) Kremlin Situation

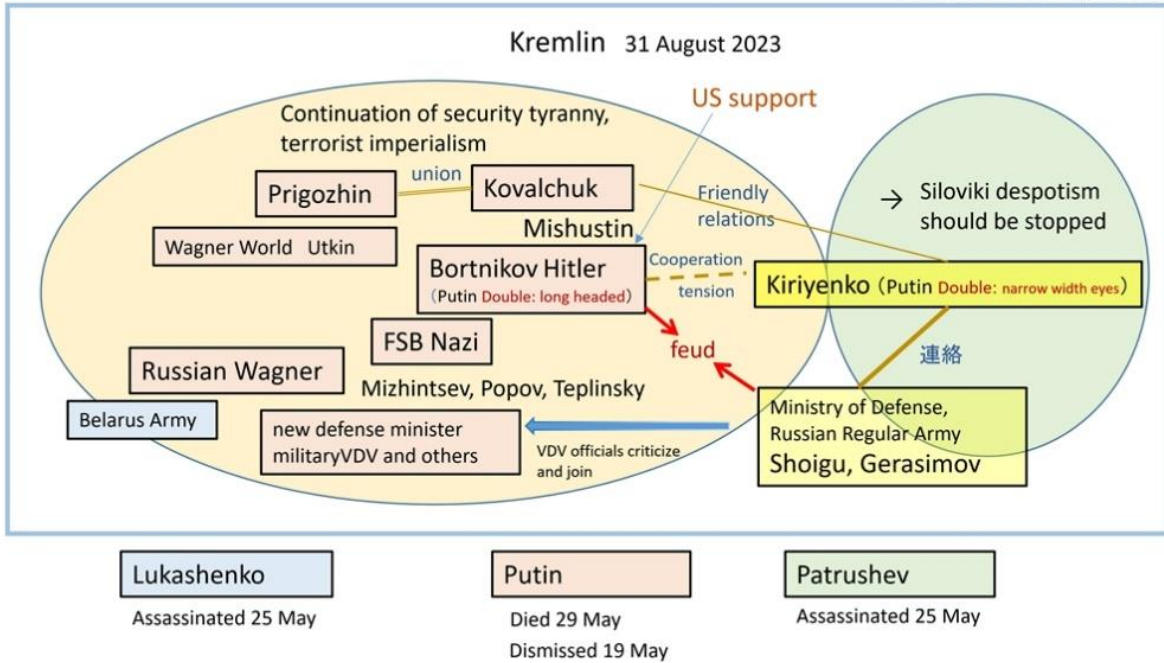

(1) Under a coup d'état regime

On May 18, Patrushev ruled that Putin was unable to continue as president after suffering a subarachnoid hemorrhage.

It can be concluded that Prime Minister Mishustin became acting president on May 19th. Because on that day, it was announced that he would go to meet Xi Jinping.

The Constitution of the Russian Federation stipulates that presidential elections must be held within 90 days. Since 90 days have already passed, the Kremlin is now under a coup d'etat.

Furthermore, government officials are prohibited from resigning.

(2) President Lukashenko was assassinated on May 25, and Belarus is under the control of Russian Nazi FSB Bortnikov Hitler and Wagner

President Lukashenko was assassinated on May 25, and Belarus is under the control of Russian Nazi FSB Bortnikov Hitler and Wagner.

On the second day of his visit to Moscow for a meeting of countries related to Russia, President Lukashenko set himself apart from the leaders of other countries, saying, "Let me meet the real Putin."

Comments were made from Moscow that day indicating that he had been assassinated.

"President Lukashenko was taken by ambulance and is undergoing a complete blood exchange at the hospital," the Moscow side said.

President Lukashenko has heart problems, and when he went to Red Square on May 9, Victory Day, he had just had the needle removed from an intravenous drip after catheter surgery.

That's why he had trouble walking.

However, he had no illness that would cause him to suddenly collapse and require a complete blood exchange.

His whole blood exchange was done in order to minimize the amount of poison in his body and destroy the evidence.

However, the fact that he overprepared and even announced a complete blood exchange symbolizes Bortnikov Hitler's stupidity.

The photo of Lukashenko on the homepage of the Belarusian President's Office has already been replaced with a photo of Double. The Belarusian president is no longer the face of the potato image.

Belarus is already under Wagner.

The world must not recognize the current Kremlin members, Bortnikov, Mishustin and two Putin doubles coup regime.

If the nuclear weapons moved to Belarus international terrorists Wagner will essentially have a button.

It was my tweet that pointed out that "Biden is crazy and wants to hand over nuclear weapons to terrorists."

Biden seems to have gotten impatient and contacted Bortnikov and told him to "hold a Lukashenko press conference."

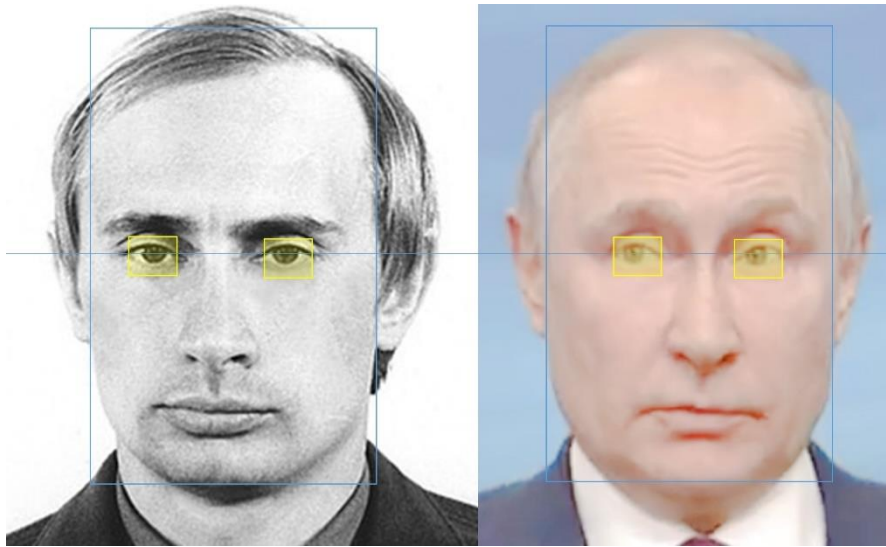

Because Lukashenko Double, who appeared in St. Petersburg, seemed to be in a hurry with no hair on the top of his head, or with blond hair.

The other Putin Double was also the one who took press photos with the leaders of other countries, making it an unusual press conference in which he did not make any speeches.

Double with a long head has a different ear shape from the real Putin.

Patrushev, secretary of the Security Council, was determined by Putin to be the person with the highest authority in case something happened to him.

Nikolai Patrushev, along with his son Dmitry (Minister of Agriculture), visited Putin on May 18th after he suffered from a subarachnoid hemorrhage.

Patrushev, seeing Putin unable to utter a single word, decided that he was unable to continue as president.

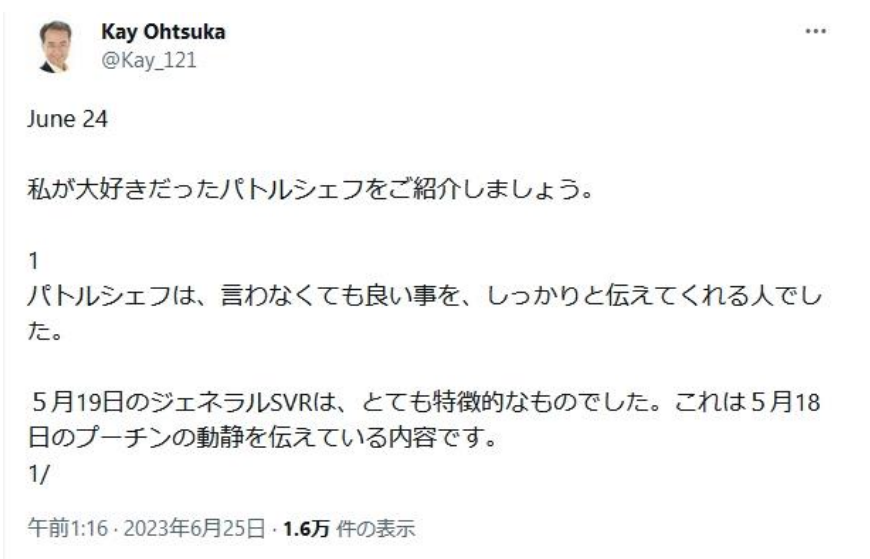

The following day, May 19, in accordance with the provisions of the constitution, Prime Minister Mishustin was appointed acting president and sent to greet China's Xi Jinping.

Before that, when Patrushev met with Xi Jinping in Beijing, he was talking about Dmitry Patrushev as Putin's successor.

But around May 19th, I got the feeling that Patrushev had other things in mind.

I think he began to think that it was necessary to create a new Russia suitable for the generation of his sons, instead of continuing the FSB's dictatorial regime of security.

Putin had become the violent adult man he feared at that time.

It was considered to be Russia's social pathology, with problems of poverty, alcohol, and violence being reproduced over and over again.

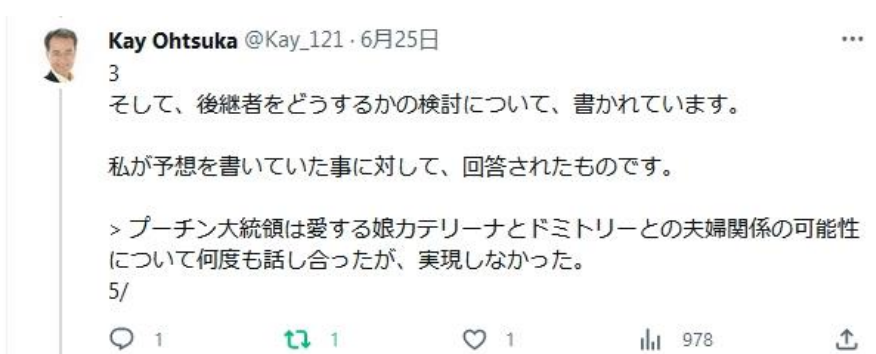

[http://kay5.music.cocacn.jp/Putin is a Psychopathy.pdf](http://kay5.music.cocacn.jp/Putin%20is%20a%20Psychopathy.pdf)

Russia should get rid of its social pathology, and in order to become a decent society, it would take 30 years for children to live happily and grow into adults.

Communication with Patrushev had been established through his Kremlin leaks to General SVR and my replies.

I had a feeling that he had listened to his son's ideas, had seen Putin's daughter's way of life, and wanted to create a new era for Russia.

https://twitter.com/Kay_121/status/1672641256923746305

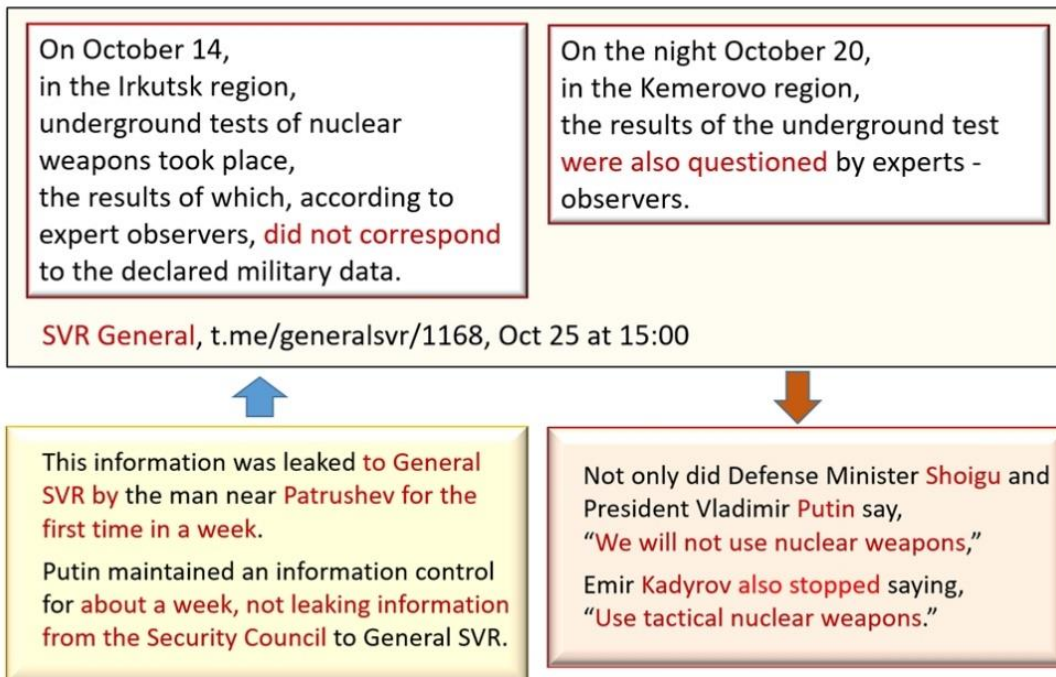

<https://t.me/generalsvr/1590>

Because he leaked no need answer for me through the General SVR.

For example, he conducted two underground nuclear tests and leaked that the nuclear missiles failed to produce a nuclear explosion.

<https://t.me/generalsvr/1168>

3 **You should believe** the information that **"2 underground nuclear tests have failed."**

He then leaked the results of a study showing that 87% of nuclear missiles are unable to cause a nuclear explosion.

http://kay5.music.coocan.jp/General_SVR_1204_Unsuitable_nuclear_weapons.pdf

<https://t.me/generalsvr/1256>

Unfortunately, by the time Prime Minister Mishustin returned from Beijing, he had already passed away and his presence in General SVR disappeared.

<https://www.newsweekjapan.jp/stories/world/2023/07/post-102120.php>

I called on Ukraine to ensure that the Biden administration contacts the Kremlin to confirm Patrushev's safety.

It is safe to assume that a direct phone call immediately revealed that Patrushev was dead.

But I felt that that report was released after Secretary of State Blinken visited Beijing from the United States, met with Xi Jinping, and discussed how to proceed.

Because it was a very negative nuclear threat.

The US also confirmed that Putin was no longer president, because Prime Minister Mishustin went to greet Xi Jinping in May .

(4) Putin's end

Putin passed away on May 29th.

When Putin went to the Eastern Economic Forum, I diagnosed that the cause of his illness was acute symptoms of Addison's disease.

He appeared to be medicated quickly and he recovered quickly.

Then, on April 9, 2023, something went wrong with Putin, and I was asked to make a judgment through a specially requested leak on a Sunday, which is normally a day off for leaks to General SVR.

<https://t.me/generalsvr/1256>

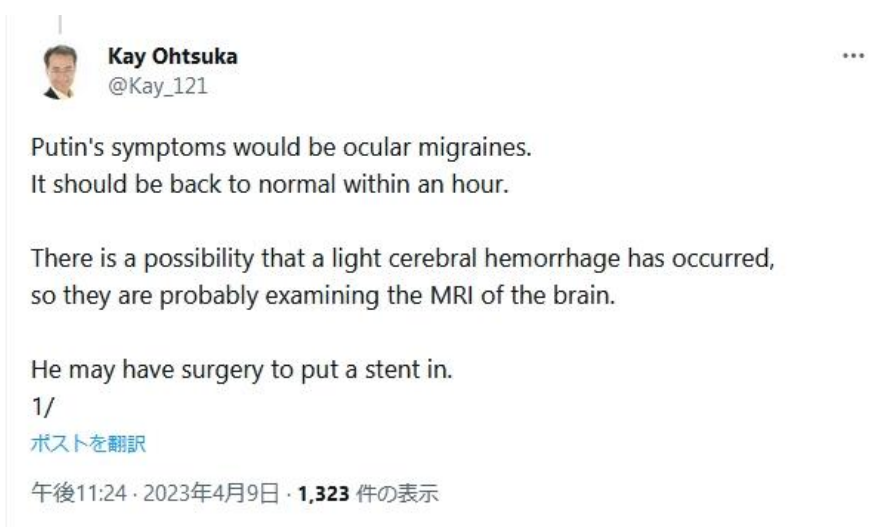

I think that was what Putin or Patrushev wanted.

I diagnosed him with a visual migraine and said he should undergo catheterization because Addison's disease slows the healing of bleeding sites.

Unfortunately, it was a Sunday, a week before Orthodox Easter.

Unfortunately, the surgery could not be performed on the same day.

Putin's symptoms would be ocular migraines.
It should be back to normal within an hour.

There is a possibility that a light cerebral hemorrhage has occurred, so they are probably examining the MRI of the brain.

He may have surgery to put a stent in.

These were leaked to General SVR. Putin had surgery on Monday and woke up from anesthesia on Tuesday.

**He seems to have had some pretty serious
aftereffects.**

5. Contents of communications to Xi Jinping regarding Wagner

1) Biden wanted to keep Wagner alive

Biden is about to leave Prigozhin, Utkin and Wagner.

He keeps sanctions on Venezuela to keep shale oil at a high price.

Biden has also become an "arms dealer = merchant of death" who supplies and sells weapons to countries in conflict.

There is a direct connection between Wagner's attack on a gold mine built in the Central African Republic by a Chinese operator and the internal conflict in Sudan.

[kay5.music.cocacn.jp/The Sudanese civil war is Wagner's goal to control GOLD jp.pdf](http://kay5.music.cocacn.jp/The%20Sudanese%20civil%20war%20is%20Wagner's%20goal%20to%20control%20GOLD%20jp.pdf)

2) China Evergrande will not be successful under Chapter 15 of the U.S. Bankruptcy Code

China Evergrande will not be able to apply Article 15 of the US Bankruptcy Law.

If so, the Country Garden will be the same, and there is a possibility that it will fall into the Great Depression.

- (1) The government took arbitrary actions, such as by defaulting to foreign currency denominated bonds but continuing to pay domestic debts.**

No attempt was made to protect investors.

- (2) The amount received before handing over the property was originally advance payment, but it was included in sales, which was inappropriate from an accounting perspective.**

There was also a problem with the bank loan itself.

Advance payment take precedence over investor protection.

So, in case of bankruptcy, the priority is to return it.

There will likely be no assets left after the liquidation and investors will likely be left with nothing.

(3) According to Western law, the company should have gone bankrupt after default.

The Chinese Communist Party government is deeply at fault for not allowing this claim to be made.

It will be difficult for the Biden administration to force the judiciary to do anything.

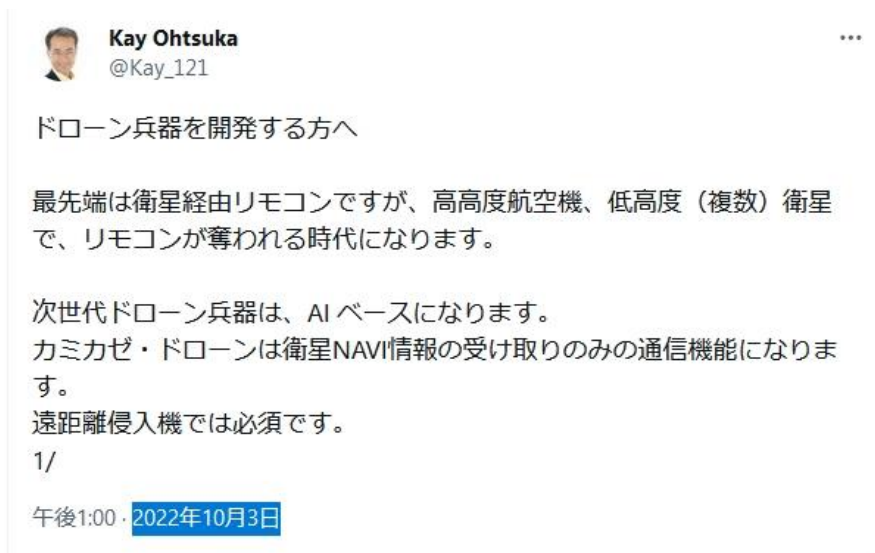

(4) Country Garden will probably end up in the same situation as Evergrande in China unless it goes completely bankrupt (as it is already unable to use the soft landing method).

6. Information other than the above

1) AI drones are the second weapon of peace

AI drones are the second weapon of peace, and if a nuclear power tries to invade a small country, there is a possibility that a radiation leak accident will be created at its own nuclear power plant.

https://twitter.com/Kay_121/status/1576784222374985730

The image is a screenshot of a tweet from Kay Ohtsuka (@Kay_121). The tweet is in Japanese and discusses the development of drone weapons. It mentions that the most advanced is satellite relay remote control, but high-altitude aircraft and low-altitude (multiple) satellites will eventually take over remote control. It also states that next-generation drone weapons will be AI-based, and that kamikaze drones will only have communication functions for receiving satellite NAVI information. It concludes that long-range infiltration aircraft are necessary. The tweet is dated October 3, 2022, at 1:00 PM.

2) Comments I sent to the Japanese military industry when I was angry with Biden

US President Biden is responsible for making a backroom deal with Russia to prolong the war of aggression against Ukraine, killing and wounding hundreds of thousands of people.

Biden is as guilty as Putin. I want you to stop the US president quickly.

I was so angry with Biden that I made a comment to a Japanese military company, "Let's help China with its commercial aircraft business, develop fighter planes with the EU, and get the US military out of Japan."

The AI specifications for the AI jet fighter have already been sent to Ukrainian President Volodymyr Zelensky.

I wrote the specifications for the AI drone, but the entire implementation was done in Ukraine.

For aircraft AI, you ask Ukraine.
