itn, politico, etc.**

**Cc: National leaders, International Organizations**

**Bcc: Media reporters, people interested in Ukraine or Israel**

**Subject:**

**Iran's attack on Israel is a hoax!**

**Biden and Sullivan made it happen.**

**Media and reporters should contact Iran etc. with my questions**

**\*\*\*\*\***

**Actually, it is distributed by Bcc.**

**Please forward it to the appropriate person.**

**Of course, in each country, please forward it not only to the leaders,  
but also to security officials, military chiefs of staff,  
and foreign affairs officials.**

**If you are in the media, please forward this to the people responsible  
for covering Ukraine and Israel.**

**\*\*\*\*\***

**Iran's attack on Israel was a hoax by Biden and Sullivan. Of course,  
with the cooperation of Israel and Iran and Bortnikov.**

## **1. The attack was incomprehensible to common sense.**

**I had a feeling that Sullivan had arranged this at the first report that Iran had attacked Israel.**

**Some of the following were directed to be communicated to Sullivan through the US Ambassador to Japan at that time.**

**Ambassador Rahm Emanuel, who heard the report from his subordinate, was an idiot and confirmed it on the embassy's official account. And he made the account appear in Twitter's "Recommended Accounts to Follow," so I'm sure my instructions got through.**

**The answer appears in the ISW report dated April 14th.**

### **(1) Do Iran's Shahed drones arrive from Iranian territory?**

**Shahed once entered the wrong latitude and longitude en route in Ukraine, missed his target, and ran out of fuel and crashed. The cruising range at that time was estimated to be 500-800km.**

### **(2) What flight path did it follow?**

**ISW seems to have accepted that it would fly through Iraq, Syria, and Jordan, but it is natural to avoid Jordanian airspace when attacking, so it is unnatural that they accepted that they flew there.**

**Also, flying to Jordan via Syria would be a detour, which would be unnatural when considering an attack.**

- (3) ISW has written that it has identified the types of ballistic missiles and drones used by US allies, but from an attacker's perspective, such a route would not be chosen**

**Given the range announced by Iran, the route would be to fly the drones low over the sea and land on land as soon as possible in Israel. At the very least, a military officer would never think of launching a drone along such a route that ISW had accepted.**

**Flying to a high altitude, just right for Israel's Iron Dome interceptor, is not done when attacking Ukraine.**

**Iran, which is more adept at handling drones than Russia, would never do something stupid like fly it to a height where it is easy to shoot it down.**

- (4) Why did Iran announce the attack before any damage was done?**

**As was the case with Israel, it would be completely unthinkable for them to make an announcement before a bullet hits the ground.**

**It is not used for terrorism, but only when a front is declared to "We start a war against your country."**

**Moreover, at that time, the side that declar the start of the war would not say anything about attacking.**

- (5) Even though this could be called a declaration of war against Israel, why did the Iranian people scream with joy even before the bullet hit?**

**Why did Iran so quickly announce that it would "no longer attack" when it could not have caused any damage and was fearing retaliation from Israel?**

- (6) They should have known that most of the missiles and drones would be dropped at Iron Dome. If so, a few ballistic missiles would be enough. Why did Iran make the waste of firing so many slow Shaheds?**

**It would make sense if there was a proposal from Israel for the marketing of Iron Dome for the Hamas ceasefire. It is also understandable if you consider that the US did this in order to shock Ukraine when the US budget for supporting Ukraine was not approved.**

- (7) There was a comment saying that the UK had flown fighter jets. However, both ballistic missiles and drones are shot down using interceptor missiles, rather than using air-to-air missiles from fighter jets.**

**It is extremely unnatural why they sent out fighter jets.**

**Even if fighter jets are trained to take off against fast-falling ballistic missiles that take time to take off, they will likely not be able to shoot them down unless Iran makes an announcement shortly after launch.**

**Are fighter pilots trained to intercept extremely slow and small drones with expensive air-to-air missiles?**

- (8) ISW writes that Russia conducted extensive airstrikes against Ukraine to prevent Iranian missiles from being able to influence Ukraine's air defenses.**

**Based on the flight course of the airstrike, it has no connection to Ukraine and has no connection whatsoever.**

**Why did ISW go out of its way to bring this up as a related matter?**

- (9) ISW wrote:**

**ISW240414 > Ukraine's large size compared to Israel makes it more difficult for Ukraine to emulate the density of air defense coverage that Israel enjoys, especially amid continued delays in US security assistance.**

**Why did the ISW make these comments when trying to pass a budget to support Israel? They are saying that there is no urgency for a budget to support Israel.**

**This means that the budget for aid to Israel is sufficient, and it is hard to imagine that Biden and Sullivan know that the bill will not be passed.**

**Furthermore, ISW has continued to have close discussions with Sullivan.**

**I believe that ISW is commenting on behalf of the Biden administration. Therefor so far I have been able to predict and predict the movements of Biden and Sullivan.**

**Of course, ISW is just a mouthpiece for the Merchant of Death, so they comment on increasing the use and sale of**

**weapons. I recognized this correctly.**

**(10) If Jordan was the route, it is also likely that US troops stationed there would have launched a non-Shahed drone.**

**If the area where the ballistic missile or drone was shot down was the flight route from Jordan, that hypothesis would be more believable.**

**As debris falls, it is possible to identify what was fired. If the photo does not appear, it becomes even more undeniable.**

**I think Sullivan will arrange for reports from Iran to be published in the media regarding these questions.**

**If we don't get that, we can assume that Sullivan and Biden acknowledged that Iran's attack on Israel was a hoax.**

## **2. The US has conducted other suspicious operations**

**I believe that the attack on the US military base in Jordan was also a false flag operation by the US military.**

**For some reason, we have not been able to hear testimonies from the people who were killed or injured, or from those involved.**

**When the Houthis were attacked by airstrikes, they were apparently informed of the locations of the airstrikes by Iran in advance.**

**The locations of the air strikes are known only to the U.S. military, so it is certain that the air strikes were carried out through backroom deals.**

**Sullivan seems to have had Iran make negative comments, but this is natural for Iran and does not serve as any evidence.**

**Regarding this matter, I told Sullivan through the embassy to prove something (fabricated evidence).**

**I look forward to reading from media companies and reporters who will interview and report on Iran and the people involved.**

**Was Sullivan upset because I wrote, "Ukrainian and US citizens should send Biden and Sullivan to The Hague as war criminals?"**

**[http://kay5.music.coocan.jp/J\\_Continued\\_The\\_Crocus\\_City\\_Hall\\_bombing\\_was\\_an\\_FSB\\_false\\_flag\\_operation.pdf](http://kay5.music.coocan.jp/J_Continued_The_Crocus_City_Hall_bombing_was_an_FSB_false_flag_operation.pdf)**

**Although Jordan is a kingdom, it is the only country that did not receive my UN proposal.**

**Since the US military is stationed there, the officials are probably under the command of the US military, just like in Japan.**

**When I send an email to a public address, the server responds immediately to addresses that are not in use.**

**However, Jordan is one day late and returns a message pretending to be a server saying they do not accept the message. I have experienced this many times.**

**Please give my UN proposals directly to the King of Jordan.**

### 3. Zelensky made statements that suggested he intended to lose.

At about the same time, Zelensky began making comments that could be interpreted as saying:

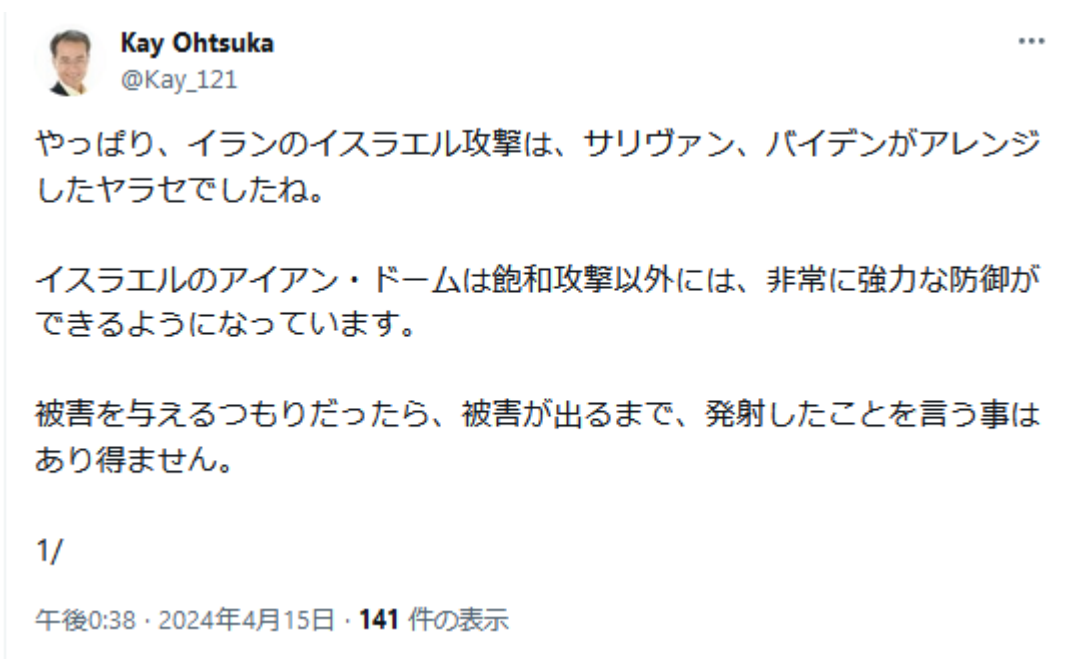

**"I have no intention of defeating Russia.**

**I would like to accept a ceasefire-like peace that involves the cession of territory and join NATO."**

**Below is what I tweeted.**

**This will be the focus of attention in the coming weeks.**

[https://twitter.com/Kay\\_121/status/1779715992932987108](https://twitter.com/Kay_121/status/1779715992932987108)

**After all, Iran's attack on Israel was a hoax arranged by Sullivan and Biden.**

**Israel's Iron Dome has a very strong defense other than saturation attacks.**

**If you intended to cause damage, you cannot announce that you fired the weapon until the damage is done.**

**1/**

**Since the US cannot directly arrange for Iran, it is of course doing so through Bortnikov, the US spy in the Kremlin.**

**In other words, it was a fake attack related to Ukraine to create a reason for Ukrainian President Zelensky to surrender.**

**2/**

**Since the US couldn't directly arrange for Iran, it was of course doing so through Bortnikov, the US spy in the Kremlin.**

**In other words, it was a fake attack related to Ukraine to create a reason for Ukrainian President Zelensky to surrender.**

**2/**

**Zelensky is now a spy for Biden, and it will be a while before he concedes defeat to Ukraine.**

**What happens to the US budget bill is completely meaningless.**

**3/**

**The US is a "merchant of death", Trump and the Republican Party will also join forces to defeat Ukraine and allow sanctions on Russia to continue or be lifted,**

**completely politically killing Zelensky.**

**4/**

**In yesterday's ISW report, Zelenskyy says something stupid as an excuse for losing.**

**The number of F-16s provided is completely meaningless.**

**Because it is limited by the number of pilots.**

**Since it cannot be used to attack mainland Russia, Zelensky has probably decided to surrender and accept a ceasefire-like peace.**

**5/**

**<https://www.understandingwar.org/backgrounder/russian-offensive-campaign-assessment-april-6-2024>**

**[1] <https://www.youtube.com/watch?v=Mkqm0yx5ByY>**

**Iran won't launch a large number of them if they aren't effective.**

**This was done for marketing purposes to help sell Iron Dome, and also because of Biden and Sullivan's intention not to give air defense weapons to Ukraine.**

**6/**

**If Bortnikov in the Kremlin wasn't a spy for Biden, Russia wouldn't let Iran attack Israel just like to declare war.**

**Bortnikov acted on his own as a spy for Biden.**

**This is a scenario in which Zelensky surrenders and accepts a cease-fire peace agreement.**

**7/**

**Furthermore, Biden and Sullivan will intensify civilian airstrikes on Kharkiv and airstrikes on power infrastructure until Zelensky surrenders.**

**Ukrainians should be very careful.**

**Zelensky will only become an obstacle to Ukraine's recovery.**

**8/**

**He should be dismissed as soon as martial law is lifted.**

**9/**

#### **4. I know why Russia suddenly changed its attitude about conducting peace negotiations.**

**The US Senate's move to adopt Mike Johnson's budget that includes aid to Ukraine stems from the same cause.**

**However, just because the proposal is up for adoption means that the plan has been rejected. If the budget is to be passed, it will be done on April 9th.**

**Mike Johnson can't get it passed with Republican votes. He is**

**the person who has passed budgets with the support of Democratic members.**

**This is also the reason why the Biden administration, which had planned to provide six F-16s to Ukraine, suddenly changed its mind and approved the provision of F-16s from European countries.**

**After observing future developments, I will decide whether to include it in my next proposal to the United Nations and its member countries.**

**Of course, along with the release of specifications for winged AI drones.**

**However, at the recent Japan-U.S. summit meeting, it was decided that Japan's Self-Defense Forces would come under the command of the U.S. military, so I will not send it to countries where U.S. forces are stationed and are vassal states of the United States.**

**The US, Japan, South Korea, Jordan, Iraq, and some countries in Africa. There are some countries in the EU that have military presence under bilateral agreements, but there is no point in distinguishing them from NATO countries, so I will send them.**

**If possible, please do not send it to the US.**

**Since it has already been sent to Ukraine, it will not be necessary.**

## **5. Biden cannot resolve Russia's war of aggression in Ukraine.**

**The US military, weapons industry, and oil majors should fire Biden to resign as soon as possible, as they were able to do so at the recent Japan-US summit meeting.**

**There is no prospect that Biden, who lacks judgment, will be able to resolve the issue as to whether to continue imposing economic sanctions on Russia or lift them as Russia wishes and impose a ceasefire-like peace on Ukraine.**

**It is clear that Zelensky's political career will be cut short if he does not make an offer before peace negotiations begin. He will be the complete defeat of Ukraine.**

**If sanctions remain in place, as the US hopes, Bortnikov will be ousted within the Kremlin.**

**With Biden and Sullivan, thousands of people will continue to be killed and injured in Ukraine and Russia every day.**

**Biden should be fired as soon as possible.**

**It is clear that Zelensky's political career will be cut short if he wasn't accept an offer of sanctions lift or no before peace negotiations begin. He will make the complete defeat of Ukraine.**

**If sanctions remain in place, as the US hopes, Bortnikov will be ousted within the Kremlin.**

**With Biden and Sullivan, thousands of people will continue to be killed and injured in Ukraine and Russia every day.**

**Biden should be fired as soon as possible.**

**In the previous report, I wrote about 1 trillion euros in compensation. That was an estimate over a year ago.**

**Russia continues to destroy so much that it's safe to predict 2 trillion euros at this point.**

**The cost will be borne equally by Russia and the US. Half of the US burden should be borne by the oil majors.**

**The amount that the US would have to pay as a country could be raised by abolishing the US military. No country can attack the US. It's completely unnecessary.**

**It should be dismantled and become to the National Guard army. If possible, the US should abolish the US Constitution and become a cooperative country like the EU.**

**If each state were to issue its own currency, it would be possible for not only industry but also agriculture to recover its export competitiveness and make a comeback.**

**How long will the dollar continue to earn money and live in a bubble economy? It's probably time to end it.**

**In another 100 years, we will need to transition from an era of fossil fuel dependence to SDG energy.**

**If the US continues as it is, humanity around the world will be in a very dire state a century from now. The US should regain a form of government with some intelligence.**

**The US has only a low level of freedom and democracy.**

**The U.S. Embassy in Japan has restricted my Twitter X account, where I have almost no followers.**

**Stuff look at each my tweet one by one and decide whether to distribute it to a limited number of people or not.**

**Rahm Emanuel, the ambassador to Japan, is very stupid.**

**Even though I had muted the account, the person in charge replied and had it appear in my notifications.**

**He declared, "I am a spy for the United States using a privileged account." If they block my account, I'll create an account they don't know about.**

**And they get in trouble because a lot of people tweet and contact them.**

**That's why they don't understand that they are restricting my tweet distribution based on each individual tweet.**

**The target of the censorship and suppression of information dissemination that Biden and Sullivan are carrying out with the help of Elon Musk was my documents addressed to the United Nations, member states, and US members of Congress.**

**Now, if Biden is to remain president, he will have to choose whether Bortnikov or Zelensky.**

**If he chooses Bortnikov, economic sanctions will be lifted. Ukraine would be completely defeated, and Zelensky's political career would end.**

**European NATO countries will likely oppose it.**

**This document will be sent to the United Nations and its member states, so if the sanctions are lifted, not only Biden but also the US military will lose credibility.**

**In the case of a ceasefire-like peace with continued sanctions, Bortnikov would be ousted in the Kremlin. Because the Russian economy will collapse.**

**I think it is normal for those involved in the U.S. military, the arms industry, the oil majors, and churches to decide that the first thing to do is to force Biden to resign.**

**If Biden continues like this, Russia will choose to have the US pay half of the 2 trillion euros in reparations.**

**This would be a more realistic way to end the war than paying the full price.**

**It is better that Russia launch a nuclear missile. It will be widely known that nuclear missiles do not cause nuclear fission explosions.**

**These will be over that the nuclear superpowers of the US, Russia, and China practiced imperialism and invaded other countries, or made them vassals under US military control.**
