**Subject:**

## **The Crocus City Hall bombing was FSB false flag operation.**

**Several facts indicate that the FSB's false flag operation coincidentally coincided with ISIS' demonstration of attack.**

**There are no photos of the casualties at the scene, and there were orderly denouncers from inside the venue, so the number of casualties is probably only a few at most.**

- 1. Judging from the appearance of the venue, the crime was committed using a large number of people.**

**The people in the venue wearing blue uniforms and jeans who could be assumed to be FSB members remained calm and seated during the evacuation of the venue, and it can only be assumed that they were aware of the incident.**

## **2. The core of the crime was the explosion, not the fire**

**Judging from the desolation of the venue, it is thought that it was blown up rather than burned. Moreover, it is believed that the explosion occurred in the center of the seats at the venue.**

**This is inferred from the fall of the steel frame directly above, the major destruction of the dome, and the destruction on both sides of the stage.**

**It would be impossible for intruders from outside to set up explosives in the center of the venue and escape within 30 minutes. Even considering the difference in the number of people guarding the area, there is no way that such a crime plan could have been planned and executed.**

3. The second floor seats are dressed in blue uniforms and jeans disguised as spectators, while the first floor seats are dressed in white uniforms.

In the first floor seats, there were people in white uniforms who appeared to be staff guiding and evacuating the audience.

They seemed to be in a bit of a panic, but they seemed to be guiding the evacuation properly.

In addition, there is a Kremlin leak (General SVR) that the Interior Ministry personnel and Russian Guards who were said to have been present at the venue fled instead of responding to the members who are said to have carried out the shooting.

<https://t.me/generalsvr/2257>

Japanese translation, Google Translate English, original copy

[http://kay5.music.coocan.jp/GeneralSVR\\_240325.pdf](http://kay5.music.coocan.jp/GeneralSVR_240325.pdf)

4. It is safe to assume that the members who arrested the alleged culprits were the FSB wearing blue uniforms and jeans.

The person who appeared to have had his ear chopped off was taken away by a man wearing a blue jeans uniform, the same uniform as the person present at the venue.

- 5. General SVR himself pointed out the strangeness of the arrest of the perpetrator in the first report of the incident.**

**Although the crime is said to have been carefully planned, the suspect was driving an old and extremely slow Renault, even though the Ukrainian border was several hundred kilometers away.**

**What kind of window (escape route) is open on the Russia-Ukraine border when the RDK and the "Russian Freedom Corps" armed with armored vehicles and cannons are said to be on the border?**

**This description is not from the Kremlin leak, but can be thought of as a comment from General SVR himself, who has witnessed numerous FSB false flag operations.**

**<https://t.me/generalsvr/2253>**

**Japanese translation, Google Translate English, original copy**

**[http://kay5.music.coocan.jp/GeneralSVR\\_240323-2.pdf](http://kay5.music.coocan.jp/GeneralSVR_240323-2.pdf)**

- 6. Russia's claim has always been that Ukraine was responsible and that it was involved**

**Since Russia has been insisting on Ukraine's claims since that day, and even after admitting that ISIS was responsible for the attack, it is still claiming that Ukraine ordered it, so it can only be considered a false flag operation by the FSB.**

Since Ukraine has no benefit whatsoever from causing the incident, it is judged that it had no involvement at all.

The arrested Tajikistan nationals were only running the routes on request; they had not received any training or received any compensation.

The perpetrator would have been carrying a firearm, so he would not be captured and tortured by FSB agents in jeans without resistance.

In the false flag incident in which a Molotov cocktail was thrown at the front door of a conscription office, the FSB contacted the suspects in advance, had them commit the crime during daylight hours, and filmed it.

**It is also very similar to the St. Petersburg false flag incident.**

**The FSB asked the woman to give the gift to a speaker at the venue, causing it to explode.**

**It was clear that they had filmed the woman entering the venue just before the incident. That's because the woman can't arrange the shoot.**

**Also, the fact that the culprit was caught early in the Crocus Sea Hall bombing is similar to previous false flags.**

**7. It was ISIS terrorism that invaded, shot, and left in 30 minutes.**

**It is also true that ISIS invaded and carried out shootings. It is difficult to deny this because the footage from the perpetrator has been released.**

**The FSB will not ask ISIS to do so. Because they were in a conflicting relationship.**

**ISIS is also anti-American, but it has also been attacked by Russia, and before that it was the Soviet Union that fought in Afghanistan**

<https://www.newsweekjapan.jp/stories/world/2015/02/isis-4.php>

**8. Let's consider the purpose of ISIS's crimes.**

**"ISIS Claims Attack on Moscow Concert Hall After Ukraine Blames Putin"**

**Jason Lemon, Newsweek**

**Published Mar 22, 2024 at 6:36 PM EDT**

**Updated Mar 22, 2024 at 8:07 PM EDT**

**<https://www.newsweek.com/isis-claims-attack-moscow-concert-hall-after-ukraine-blames-putin-1882570>**

**This time, the United States and Britain had also issued warnings about a terrorist attack on a public place in Moscow by an Islamic organization. At this point, it is difficult to understand why ISIS carried out the terrorist attack in Moscow.**

**The Kremlin and Putin Double are unable to define Russians and include or exclude non-Russian-speaking Muslims and Islamic republics.**

**The main argument is that Ukraine is part of Russia, so it does not include an Islamic republic, and there seems to be a growing desire to force it to make Russian the national language.**

**Pakistan is calling for help from the IMF, saying it is facing economic collapse.**

**After the Taliban took control of Afghanistan, military and civil aid has disappeared, and the country is in the most difficult period economically.**

**With the power of Russia, Pakistan, and Afghanistan declining, it is highly likely that ISIS is attempting to establish an independent state in the areas it currently controls.**

**For the Afghan Taliban, it means they can resume their professional terrorist business.**

**If this is the case, it would be a good idea to use the countries in the southern Caucasus region of the Russian Federation, as well as the Islamic Republics within and outside the country, as a barrier to invasion from Alpina-centered areas such as Moscow to areas controlled by ISIS.**

**If it leads to the start of secession and independence in the Caucasus region without directly fighting the Russian Federation, terrorist activities in Moscow can be called a hybrid operation in a sense.**

**The warning that the UK and the US issued to their nationals living in Moscow was that the attack was an "Islamic terrorist attack." It wasn't a "terrorism attack by ISIS."**

**The Soviet Union lost against ISIS, and considering Afghanistan, the US also lost. It is unlikely that this will lead to World War III. This is the Biden administration are talking about.**

**9. The Kremlin is eager to transition from Putin Double to a post-Putin regime**

**In Russia, support for the Putin Double, Bortnikov's coup d'état, has already been lost. The actual results of the presidential election were 39.2% for Putin and 27.4% for Vladislav Davankov.**

**<https://t.me/generalsvr/2237>**

**Japanese translation, Google Translate English, original copy**

**[http://kay5.music.coocan.jp/GeneralSVR\\_240319.pdf](http://kay5.music.coocan.jp/GeneralSVR_240319.pdf)**

**Given that a majority is the condition for election, Putin Double has not been able to win.**

**Perhaps for this reason, the Kremlin is considering making nomination by parliament rather than voting by the people in elections after the abdication of Putin Double (the condition for winning is the top vote-getter rather than over half of votes).**

**<https://t.me/generalsvr/2223>**

#### **10. What is the situation in the Russian Federation?**

**The Russian Federation is approaching the brink of collapse on three fronts:**

**(1) Economic bankruptcy: All military needs are covered by taxes, so no added value is created.**

**Therefore, the Russian economy began to decline from 2023.**

**Inflation rates are high, especially for foreign products and chicken and eggs.**

**The exchange rate cannot be maintained without buying support, and is headed for a low price.**

**Intangible expenditures using gold such as the purchase of weapons from Iran and the use of Starlink are increasing.**

**(2) Military inferiority: The loss of manpower and weapons is more than three times that of Ukraine.**

**(3) Political crisis: Putin Double's declining approval rating;**

**Internal conflicts within the Kremlin (becoming a vassal state of China)**

**Declining centripetal force in Islamic republics and regions within the Federation (volunteers could not be gathered, and lump-sum payments increased by 33%)**

**Declining centripetal force in Asian republics**

**Decreased trust from CSTO countries including Armenia**

**However, for the Russian Federation, losing control of areas such as the Caucasus would be a bigger blow than areas controlled by ISIS.**

**Depending on how it unfolds, ISIS could spark a trigger conflict that could disrupt the Russian Federation.**

**11. What is Biden doing and what is his goal?**

**Biden, Sullivan postponed the F-16 delivery again in May to avoid having to choose the spy whether FSB chief Bortnikov Hitler or President Zelensky as the spy. Moreover, they decided to provide only six aircraft for 12 pilots.**

**In effect, they prevented Ukraine from gaining air superiority within its territory. It is unclear which they will remain as spy whether Bortnikov or Zelensky. Maybe they decided to continue the war, which is the next best option if a ceasefire cannot be imposed.**

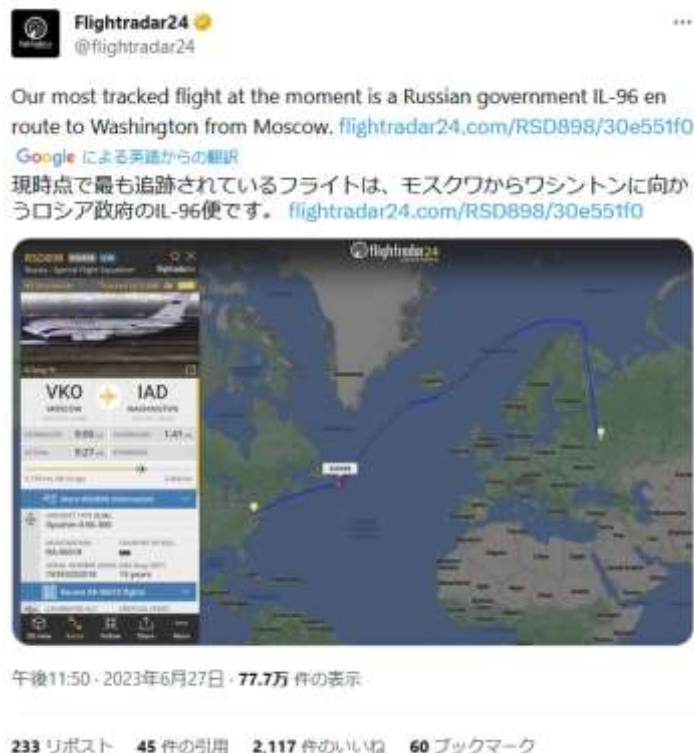

**However, it should be recognized that the US and the Kremlin**

decided to continue their strategy of restricting the supply of artillery shells during March and April, assuming that Ukraine would accept a cease-fire as the Patriot and other air defense missiles were depleted.

If Ukraine continues to fight without accepting a ceasefire-like peace agreement, it is difficult to predict future developments without looking at the state of the Russian Federation and the power struggle within the Kremlin during May.

Also, if a fight for independence begins in areas currently controlled by ISIS, major changes may occur, as it will be difficult for both Russia and the US to subdue it.

There are possibilities that the US president's behind-the-scenes dealings with the Kremlin, activities to cause conflicts and wars in various places, sanctions, and policies to maintain high oil prices may come to an end.

## **12. Putin Double's new term starts in May**

**Putin Double's new term begins in May. The person who served as prime minister at that time will become acting president when Putin's double cedes to the post-Putin era.**

**The Constitution of the Russian Federation stipulates that the person who becomes acting president must hold an election for the next president within 90 days.**

**Bortnikov leaked to the General SVR that he wanted to continue the puppet government with Dyumin as a post-Putin figure, but Xi Jinping instructed him not to let the Kremlin decide on its own.**

**A delegation from China has also come, and the question of who should be the next prime minister is currently divided between**

**Prime Minister Mishustin and former President Medvedev.**

**The mainstream group includes Prime Minister Mishustin, Kiriyenko, and Kovalchuk's son, and is in a power struggle with the coup factions of Bortnikov, Peskov, and Naryshkin.**

**It is not clear who they want the next president to be.**

**Well, with that in mind, I have decided to publish my specifications for Ukraine's AI weapons, such as AI rush-type winged drones, in May.**

**The US is the "merchant of death," and the Speaker of the House of Representatives has commented that "weapons and shells for Ukraine should be purchased in European countries and delivered to Ukraine."**

**It has also become clear that the inclusion of grants to Israel was a way for the Biden administration and Congress to avoid passing the deal.**

**If European countries purchase US weapons and provide them to Ukraine, they will be supporting the US to continue as a "merchant of death."**

**It is time for European countries and other countries around the world to recognize the US as an unscrupulous country and give up on being a partner.**

**Zelensky seems to want to expand his military and maintain a state of conflict with Russia, so he won't give up on the US.**

**Looking at Israel's excessively defensive war, it can be said that if the United Nations does not have the power to impose sanctions on the imperialism of the US, Russia, and China, there is no reason**

for its existence.

Of course, the Security Council, which has veto power, should be abolished.

If we look at the United States and Russia, which continued to hold Security Council meetings throughout January and prevented the United Nations General Assembly from convening, the Security Council is nothing more than an obstacle to world peace.

The Internet began with the opening of ARPNET, a U.S. Department of Defense and military network, to the private sector.

The only way to be able to shut down the Internet by UN resolution is to establish the Internet root (the Mother) outside the US.

If Internet management organizations object to this, the countries of the world should strip the US of its authority as an internet provider, set up services outside the US, and force the US to pay half of the connection fees for overseas lines.

This is essential to breaking the monopoly dominance of Amazon, Google, Facebook, and Apple.
